On This Side.

Just as I thought of you, darling,
Just as I named you of old,
My little white rose of the spring-time,
My little lamb of the fold;
Fair as the promise of summer,
Sweet as its balmy breeze,
Bright as its dewiest blossom,
Purer than any of these.

Just as you were to me, darling,
Out in that far-away time,
Dear as the dream of a poet,
Soft as its musical rhyme;
Sad with the weight of a sorrow
You and I only might know,
Just as you were to me, darling,
Far in the days long ago.

Just as you came to me, darling;
Faith in your beautiful eyes,
True as the whisperings of Heaven;
Blue as its sunniest skies;
Just as you came to me, darling,
Brown lashes heavy with tears,
Saddened because of my sorrow,
Weeping because of my fears.

Just as you went from me, darling,
Down through the darkness unknown,
Over the echoes of waters,
Into the shadows alone,
On through the radiant pathways
Only the chosen have trod;
Bright with the brightness of Heaven,
White with the whiteness of God.

Only a dream of you, darling;
Never a close of your hand,
Never a smile from your smiling,
Far in the beautiful land;
Never to see you beside me,
All through the desolate years,
Saddened because of my sorrow,
Weeping because of my fears.

The daily newspapers of New York do not all aim to be great civilizers. The *Herald*, by way of ornamenting the conclusion of the history of poor Botts, prints a list of the persons who have been hanged on the Botts gallows, together with the names of the murderous sheriffs who swung off the several victims. Such reading is probably as satisfying to the families of the sheriffs as it is to the families of their victims; but it is not civilizing to anybody.

The ways of Providence are inscrutable in selecting its instruments of reform. If we are to credit the New York journals, the man whose ability and vigor secured the disruption of the corrupt Tammany ring, left England in consequence of unpopularity, superinduced by a pleasant habit of beating his wife. Thus one people's poison is another people's meat. So we go.

A single hair of the first Napoleon lately sold for \$100 at a French fair. In this country a whole wig could be bought for less money.

WHAT

IF it was only in the matter of GROCERIES, this question could never be asked, because the people of Columbia and up-country already know the fact and act upon it.

ARE

We offer the best goods to be found in any known market, and if better than the best could possibly be had, we should have them.

YOU

Our perishable goods are fresh, daily. We can scarcely supply the demand, dull as times are. In this case we include Hams, Breakfast Strips, Tongues, &c.

GOING

In Flour—handling, we think, more heavily than any merchant here, we offer peculiar inducements in quality as in price.

TO

In Liquors, I am assured you have the inside track. We trust all who give us a call will acknowledge the "Corn."

DO

In Fancy Groceries and Canned Goods, our assortment is unequalled; every novelty

ABOUT

Being added to stock promptly, and standard goods always on hand.

IT?

So, dear reader, whenever your stock of Groceries runs short; whenever a delicacy is required for the sick room; whenever the appetite of the epicure fails; in short, whenever you want anything else but Dry Goods, Boots and Shoes, or Queen's Delight, call; and we can tell you, also, where they can be got for nothing.

Clear and Harmless as Water.

NATTANS' CRYSTAL DISCOVERY FOR THE HAIR.

A PERFECTLY clear preparation in one bottle, as easily applied as water, for restoring to Gray Hair its natural color and youthful appearance; to eradicate and prevent dandruff; to promote the growth of the Hair and stop its falling out. It is ENTIRELY HARMLESS and perfectly free from any poisonous substance, and will therefore take the place of all the dirty and unpleasant preparations now in use. Numerous testimonials have been sent us from many of our most prominent citizens. In everything in which the articles now in use are objectionable, Crystal Discovery is perfect. It is warranted to contain neither Sugar of Lead, Sulphur or Nitrate of Silver. It does not soil the clothes or scalp, is agreeably perfumed and makes one of the best dressings for the Hair in use. It restores the color of the Hair more perfectly and uniformly than any other preparation, and always does so in from three to ten days, virtually feeding the roots of the Hair with all the nourishing qualities necessary to its growth and healthy condition; it restores the decayed and induces a new growth of the Hair more positively than any other remedy. The application of this wonderful Discovery produces a pleasant and cooling effect on the scalp, and gives the Hair a pleasing and elegant appearance.

We call especial attention to the fact that a limited number of small trial bottles can be had by those wishing to try it. You will notice that in pursuing this course, our aim is to convince by the actual merits of the article.

Wheeler & Wilson's

A FEW reasons why they should have the preference over all others:

1. Wheeler & Wilson's Sewing Machine is much simpler than any of the others; requiring less than half the amount of machinery.
2. As the result of this simplicity, this machine is much less liable than the others to get out of repair.
3. Another result of this simplicity is greater durability.
4. Another result is less friction, and, consequently, greater ease and rapidity of motion, with less noise.
5. And greatest of all, that it uses no Shuttle, and makes the lock stitch.

It is the cheapest to buy the best. Buy the machine that has justly, fairly and honorably won a reputation and independence against a strong and bitter competition. For more than twenty years has the Wheeler & Wilson not only stood first and foremost, but how stand the best Sewing Machine of the enlightened civilized world. Buy the machine that has been thus tested and proved, and then you are sure to get the best. For sale on the easiest possible terms. "Motte's Victoria Tonic Bitters."
ENTIRELY VEGETABLE.

For the cure of Dyspepsia, Acute and Fever, Bilious Disorders, Debility, and all Impurities of the Blood.

THESE BITTERS have now firmly established themselves in the favor of the public and the medical profession. Prepared from purely vegetable ingredients of acknowledged efficacy, their unrivaled and highly tonic, stimulating and purgative qualities peculiarly adapt them to all cases of General Debility, Nervous Prostration of the System, &c.

As an excitant of the appetite and a wholesome aid to the process of digestion, they will be found to be very efficacious, while their peculiar medical properties render them of unequalled value to those subject to Chills and Fever, Congestion, and other miasmatic diseases.

These Bitters will be found most wonderfully beneficial in all cases of Debility and Irregularities of Females. Wherever introduced, they become a standard article—a medical staple. Unlike the many noxious stimulants advertised, they brace and fortify the system without exciting undue cerebral action. They are without doubt the best tonic and constitutional renovator ever offered to the public.

PACIFIC GUANO COMPANY'S
COMPOUND
ACID PHOSPHATE OF LIME,
For Compositing with Cotton Seed.

Price \$25 Cash, with Usual Advance for Time.

THIS article is prepared under the superintendence of Dr. ST. JULIEN RAVENEL, expressly for compositing with Cotton Seed.

It was introduced by this Company two years ago, and its use has fully attested its value. 200 to 250 pounds of this article per acre, properly compositing with the same weight of Cotton Seed, furnishes the planter with a FERTILIZER of the highest excellence at the smallest cost. A compost prepared with this article, as by printed directions furnished, contains all the elements of fertility that can enter into a first class FERTILIZER, while its economy must commend its liberal use to planters.

For supplies and printed directions for compositing, apply to

ETIWAN FERTILIZERS.

THREE VERY SUPERIOR ARTICLES are offered by the Sulphuric Acid and Superphosphate Company of Charleston, S. C., viz:

ETIWAN GUANO.

A complete Manure, adapted to Cotton, Grain and Tobacco, being the well-known article heretofore offered at the very high grade of fifteen per cent. dissolved Bone Phosphate of Lime, with the addition, as heretofore, of Peruvian Guano, Ammonia and Potash. Price \$55 per ton, if paid on or before the 1st of April next, and \$60 per ton, payable 1st November, 1872, without interest.

ETIWAN CROP FOOD.

A new article of the same high grade of Soluble Phosphate, compounded with the elements of Cotton Seed in such a manner as to insure one of the best Fertilizers for Cotton grain, at a lower price than the Etiwan Guano. Price \$40 per ton, if paid on or before the 1st of April next, \$45 per ton, payable November 1st, 1872, without interest.

ETIWAN DISSOLVED BONE.

Averaging from eighteen to twenty per cent. of Dissolved Bone Phosphate, and thus enabling the planter, by compositing, to obtain two tons of half that grade at a saving of one-half cost and freight. Price \$35 per ton, if paid on or before the 1st of April next; \$40 per ton, payable 1st November, 1872, without interest.

TAKE NOTICE!—That all these Fertilizers are of the highest grade of Soluble Phosphate, and must hold for more than one year.

ATLANTIC PHOSPHATE.

THIS FERTILIZER, manufactured by the ATLANTIC PHOSPHATE COMPANY, under the direction of their Chemist, Dr. ST. JULIEN RAVENEL, is now offered to the planting community at the VERY REDUCED PRICE OF \$48 PER TON CASH, or \$54 PAYABLE 1st NOVEMBER, 1872, FREE OF INTEREST.

This Fertilizer has been very extensively used in this State, and has given entire satisfaction; some of the most practical planters admitting it to be equal to Peruvian Guano, pound for pound.

All sales made now will be considered as cash on the 1st of March, 1872, and to those buying on time, the sale will be considered as due on 1st November, 1872.

By this arrangement, planters will be enabled, without extra cost, to haul their manure at a time when their wagons and mules are idle. Pamphlets containing the certificates of those who have used the Atlantic Phosphate will be furnished on application to the Agents.

OFFICE NO. 141 BROADWAY, NEW YORK.

JOHN E. BACON, W. P. BUTLER, General Agents and Managers for South Carolina and

As General Agents, we take pleasure in presenting this well known and responsible Company to the public, and in recommending it as first class in every way. We might add much more on this subject, but, being interested as its Agents, prefer to speak through disinterested parties. Therefore, read and digest the following notices—among many others—from both Northern and Southern papers, as to the virtues of this Company:

"There is no better company in the land. A comparison with other corporations of a similar character will convince all of the superior safety in taking risks with the Brooklyn Life."

The Brooklyn Life has placed itself in the vanguard of insurance reform, and is the first company that has done full justice to the insured, &c.

[Insurance Times, New York, January, 1869.]

This great feature of cash surrender values is an important improvement that signalizes the era of insurance—*Brooklyn Sentinel, N. Y.*

This plan, guaranteed surrender values—removes the sole objection existing to making an application for insurance, *Brooklyn Daily Eagle, New York, Jan. 27, 1869.*

A policy in the Brooklyn Life is worth so much in ready money. This is the only life company that has carried this excellent feature into business.

[Dispatch, St. Louis, Mo., January 7, 1869.]

We call especial attention to this distinctive and advantageous feature of guaranteed surrender value, particularly characteristic of the Brooklyn Life. And also to the fact that there are no classes in the Brooklyn Life; all are alike, whether from the North, South, East or West. Also, we direct the attention of the public to the fact that policies can be obtained in this Company, owing to its careful management and superior advantages, at lower rates than in any other company of equal rank and solvency in America.

SOLUBLE
PACIFIC GUANO.
Price, \$45 Cash with Usual Advance for Time.

EXPERIENCE in the use of this GUANO for the past six years in this State, for Cotton and Corn, has so far established its character for excellence as to render comment unnecessary.

In accordance with the established policy of the Company, to furnish the best Concentrated Fertilizer at the lowest cost to consumers, this Guano is put into market this season at the above reduced price, which the Company is enabled to do by reason of its large facilities and the reduced cost of manufacture.

The supplies put into market this season are, as heretofore, prepared under the personal superintendence of Dr. St. Julien Ravenel, Chemist of the Company, at Charleston, S. C.; hence planters may rest assured that its quality and composition is precisely the same as that heretofore sold.

At the present low price, every acre planted can be fertilized with 200 pounds of Guano, at a cost not exceeding the present value of 30 pounds of cotton, while experience has shown that under favorable condition of season and cultivation, the crop is increased by the application from two to three-fold the natural capacity of the soil; hence under no condition could its application fail to compensate for the outlay. THIS FERTILIZER, manufactured by the ATLANTIC PHOSPHATE COMPANY, under the direction of their Chemist, Dr. ST. JULIEN RAVENEL, is now offered to the planting community at the VERY REDUCED PRICE OF \$48 PER TON CASH, or \$54 PAYABLE 1st NOVEMBER, 1872, FREE OF INTEREST.

This Fertilizer has been very extensively used in this State, and has given entire satisfaction; some of the most practical planters admitting it to be equal to Peruvian Guano, pound for pound.

All sales made now will be considered as cash on the 1st of March, 1872, and to those buying on time, the sale will be considered as due on 1st November, 1872.

By this arrangement, planters will be enabled, without extra cost, to haul their manure at a time when their wagons and mules are idle. Pamphlets containing the certificates of those who have used the Atlantic Phosphate will be furnished on application to the Agents.

As General Agents, we take pleasure in presenting this well known and responsible Company to the public, and in recommending it as first class in every way. We might add much more on this subject, but, being interested as its Agents, prefer to speak through disinterested parties. Therefore, read and digest the following notices—among many others—from both Northern and Southern papers, as to the virtues of this Company:

"There is no better company in the land. A comparison with other corporations of a similar character will convince all of the superior safety in taking risks with the Brooklyn Life."

The Brooklyn Life has placed itself in the vanguard of insurance reform, and is the first company that has done full justice to the insured, &c.

[Insurance Times, New York, January, 1869.]

This great feature of cash surrender values is an important improvement that signalizes the era of insurance—*Brooklyn Sentinel, N. Y.*

This plan, guaranteed surrender values—removes the sole objection existing to making an application for insurance, *Brooklyn Daily Eagle, New York, Jan. 27, 1869.*

A policy in the Brooklyn Life is worth so much in ready money. This is the only life company that has carried this excellent feature into business.

[Dispatch, St. Louis, Mo., January 7, 1869.]

We call especial attention to this distinctive and advantageous feature of guaranteed surrender value, particularly characteristic of the Brooklyn Life. And also to the fact that there are no classes in the Brooklyn Life; all are alike, whether from the North, South, East or West. Also, we direct the attention of the public to the fact that policies can be obtained in this Company, owing to its careful management and superior advantages, at lower rates than in any other company of equal rank and solvency in America.
